DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 2, "a data entry device" is not clear. Neither the descriptive portion of the specification nor the drawings clearly disclose what comprises such.

Claim 1, line 3, "a notification system" is not clear as to what constitutes such.

Claim 1, line 5, "an accumulator" is not clear. The descriptive portion of the specification does not correlate with the drawings, e.g. Fig. 2, to clearly disclose what comprises such.

Claim 2, line 2, "the selected users" lacks antecedent basis and is not clear.

Claim 3, line 2, "serial or parallel manner" is not clear in juxtaposition with the specification and drawings.

Claims 4, 5 line 2 of each, "other users" is not clear in juxtaposition with the selected users.

Claim 6, lines 1-3, are not clear in juxtaposition with the specification and drawings.

Claim 8, lines 1-2, "the predetermined time" lacks antecedent basis and is not clear in juxtaposition with the specification and drawings.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-9, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Pallakof, US 6,269,343.

Pallakof discloses an electronic retail system in a network connection, e.g. Fig. 1, comprising a data entry device, e.g. 12, 14, a notification system, e.g. block 82, and an aggregator, e.g. 25, block 36, where orders are accumulated over a selected period of time, e.g. 26. Pallakof does not disclose the term originating users and other selected users. However, Official Notice is taken that users of this kind have been common knowledge in the product purchasing art, as were sending an order in a parallel or serial manner and tandem browsing sessions. To have provided such for Pallakof would have been obvious to one of ordinary skill in the art.

5. Further references of interest are noted on the attached PTO-892.

6. Claims 10-28 remain withdrawn from consideration as drawn to a non-elected invention.
